This can be the same if purchased in an art store that specializes in these supplies.

I have ordered paper size 36 by 24 or larger that can be cut into different sizes.

2 cans Non-toxic fixative for pastels (Non toxic Hairspray) may cause yellowing of paper over time. \$6.50 ea

Use recycled yogurt containers for water tubs for watercolor. Free

3 sets of Tube water colors 8-12 colors Small round pallet trays to squeeze out color.

Refills for Watercolor will be Yellow and Blue maybe green by watercolor tubes to squeeze out when individual watercolor sections run dry. \$3.50 ea.

1 can of non-toxic fixative for pastels/charcoal if purchasing your supplies separate from a classroom setting. \$6.50 ea (Non-toxic Hairspray will work too! However, it may cause yellowing of paper over time) If you don't fix the finished pastel piece it will not stay on the paper and will smear all over other artwork. Best to put a blank sheet of paper over the pastel after it dries in order to store in portfolio.

Instructions on spraying pastel and charcoal artwork:

ALL SPRAYING MUST BE DONE OUTSIDE by an Adults Only.

Hold the can about 18 inches from the surface of artwork. See How-to Video on fixative spraying. Spray artwork evenly, starting at the top. Move spray back and forth evenly until you get to the bottom of the piece. Do not hold in one area or you will over saturate the chalk and paper.

**For K-2 grade Use markers, Crayons and Watercolor only** Multi-purpose drawing paper

3 18X 24 pads of Multipurpose paper cut into quarters or halves. Multi-purpose paper \$175.00 1 -2 reams
